To Whom It May Concern:

The United Council of Human Services a certified 501C3 nonprofit organization located and operates in San Francisco Bayview Hunter's Point Community. We are in full support of Lennar Urban in their bid to be the master developers for the former military base, Concord Naval Weapons Station.

Our support of Lennar Urban is based on the project they are involved in in Bayview Hunters Point Shipyard. They have included and benefited this community more than any developer that has in the history of San Francisco. I am a native of San Francisco, second generation of the Bayview Community.

Lennar came to the community with an inclusive attitude of the people living here. They held community meetings before they started the project asking for community input during this entire process. Lennar has gone beyond and continues to include this community in each step of building the Bayview Hunters' Point Shipyard. They have hired from the community to ensure local residents were employed in their community.

The community has more than benefited from Lennar involved here. They were the first company to adopt our organization during the holidays providing donations for our toy give a way as well as funding to purchase our holiday meals.

As a former resident of Concord, I am positive that Lennar will do as they have done for our city San Francisco. I urge you to contract with a company that has the citizens of Concord's best interest at heart as well as the knowledge and experience to develop and build new housing that is inclusive to the resident of Concord.

If you would like to speak with me, my office number is (415) 671-1100.

Sincerely Yours,

Gwendolyn Westbrook, CEO
