To whom it may concern,

This letter indicates my strong support of Lennar Urban as a development partner that is keenly in tune with innovative land use ideas and who understands the importance of working within complex community contexts.

Lennar Urban is the lead developer of the Hunter's Point Shipyard in San Francisco and is actively work to revitalize a space that was formerly a Naval Shipyard. Lennar invested a great deal of time working with a diverse array of community members and constituents as they developed their plans. Based on some of that work their Regional Vice President, Kofi Bonner, approached me about the possibility of creating an innovative educational space in the heart of the Shipyard development.

In recognizing the community's desire for unique educational opportunities, Mr. Bonner had the vision to pull together a partnership between San Francisco State University, the San Francisco Unified School District, and the San Francisco Mayor's Office that will soon become the cornerstone of an innovation district.

My experience working with the team at Lennar Urban has been first rate and I recommend them without reservation.

Sincerely,

A handwritten signature in cursive script that reads "Leslie E. Wong".

Leslie E. Wong, President
San Francisco State University
