To Whom It May Concern:

It is with great enthusiasm that I write this letter of support for Lennar. We founded Vivas Banners about 3 years ago. Our main production facility is in San Francisco in the Bayview/ Hunter's Point neighborhood. Lennar first contacted us about a year ago, and since then, we have done several jobs for them including graphic design artworks, vinyl banners and decals. Lennar continues to support our San Francisco-based small business. Recently, Lennar contacted us for signage and other services in one of the development projects they have in Hunter's Point.

We are very grateful that Lennar has chosen to support us not only because they are satisfied with our work, but because we are a small business located in the San Francisco community in which they work.

Please do not hesitate to contact me should you need further information.

Sincerely,

Luis Vivas  
President
