**Re: Concord Naval Weapon Station project**

Dear Ms. Barone,

I am writing to express my support for Lennar Urban's proposal to redevelop the Concord Naval Weapons Station community. Bosch currently has the pleasure of working with Lennar Urban to redevelop the San Francisco Shipyard and Candlestick Point communities for which we are providing innovative technologies in the fields of mobility, energy, security and quality of life.

We initiated a long-term partnership with Lennar Urban in order to create configurable, scalable, and holistic solutions that support and differentiate communities. Lennar Urban's vision for a smarter community addresses several fields such as sustainable energy, quality of life and advanced mobility.

Bosch developed its vision of a connected world by undertaking innovative projects in the domain of the 'Internet of Things' and intelligent sensors. This includes sustainable mobility and autonomous vehicles, which we are developing in California.

The combination of Bosch's expertise in multiple city vision elements, alongside Lennar Urban's proposed solutions, offer unique, data-driven ideas to improve lives by developing safer, easier, and more reliable services. We welcome the opportunity to contribute to this exciting redevelopment project.

Yours sincerely,

Mike Mansueti  
President
